As you are aware Fire Station 106 is in the Florida Everglades and as such lends itself to unique challenges including the need for a heightened awareness of your surroundings to include the potential of encounters with wildlife.

Firefighters have recently found a three foot alligator outside of FRS 106 near the gas grill. Another alligator was sighted in the retention pond.

**All personnel should be alert to the possibility of dangerous wildlife present in and around FRS 106.** Especially with all the recent rains, wildlife will seek dry ground.
