RE: REPORTED INCIDENT FROM
PALM BEACH COUNTY FIRE
RESCUE ON 3/12/2010

The following information has been provided by Palm Beach County Fire Rescue to alert all fire rescue departments of an incident that occurred within their Jurisdiction:

On March 12, 2010, at 2352 hours, Quint 29 and R29 responded for a car fire. On arrival a panel truck was on fire in the engine compartment. Q29 and R29 took aggressive action and contained the fire spread to the engine compartment. The back of the truck was cut open and found to be empty. Further assessment of the truck revealed an apparent explosive/incendiary device with wires and possible flammable liquids attached to the rear wheel. The Captain on Quint 29 backed out his crew and made appropriate notifications to PBSO EOD and an arson investigator.

The incident involving the truck fire and possible explosives/incendiary device had potential of seriously injuring or killing the fire rescue personnel and sheriff's officers who responded. All firefighters should heed warning when responding to any fire and maintain a vigilant awareness of their surroundings. Report suspicious findings to the appropriate people and be safe.
